AFFECT

The founders of the AFFECT brand, Agnieszka Kuśnierz and Beata Łysoń-Dobrocińska, were united by friendship and a common dream of creating their own cosmetic brand with the highest quality products which would meet the needs of modern women. From the very beginning, the brand was founded not only on business assumptions, but most of all the desire to support women in expressing themselves and searching for their own beauty.

AFFECT was created from the combination of passion for cosmetics and the creative ideas of professional make-up artists.
